## WHAT IS THIS EVENT?

The Delaware Public Purchasing Association, in conjunction with APEX Accelerators "formally PTAC", are hosting a business to business matchmaking event to allow Federal "prime" vendors and Government Agencies to connect with small local businesses. There will be several agencies throughout Delaware represented and we would like your agency to be one of them.

## WHAT IS INCLUDED IN OUR YOUR REGISTRATION?

When you arrive you will receive your name badge, event booklet and an agency table. Breakfast and a buffet lunch will be provided for each attendee.

During the day you will have two opportunities to have one-on-one meetings with various potential new vendors/suppliers. Traditionally, each vendor will spend anywhere from 10-15 minutes with each agency or Prime Vendor. This is just enough time to find out what opportunities are available and to exchange contact information.

Attending this event will also be small, new, minority, women, veteran and disabled persons owned businesses who want to learn how to enter into business partnerships with Federal and State agencies and prime contractors seeking subcontractors.

**Your agency's participation is important. When your agency participates, it expands the opportunities for smaller businesses.**
